DYNA TERRAIN
E592

SUV / 4x4 | ALL TERRAIN

ALL TERRAIN

Evergreen AT tire is designed specifically for off-road vehicles, with a tread pattern design that balances off-road traction and on-road performance. Specially designed tread helps provide comfort, and handling, and minimize road noise.

HANDLING

Handling is crucial when it comes to safety, vehicle stability, and driving pleasure. Tires play an important role in vehicle handling.

Wider contact patch

When driving on wet roads wider contact patch shapes benefit handling.

W-shaped grooves

W-shaped grooves deliver enhanced breaking and reinforce handling in off-road conditions.

Tougher Sidewalls

Increased rubber thickness provides extra support and provides better driving performance.

OPTIMUM GRIP IN ALL DRIVING SITUATIONS

With aggressive All-Terrain pattern design, we can make the tire's drainage performance and grip performance reach a higher level. Taking the safety of dry and wet road conditions into account. Providing traction to get where you want to go with confidence.

Interlocking tie-bar

Interlocking tie-bar maximizes traction and handling on-and off-road by stabilizing the tread center.

Wet Traction

Open shoulder design improves stability and traction performance in a variety of road conditions.

SAFETY WITH COMFORT

The ES92 is designed to provide increased mud and rock traction to improve your safety in your vehicle. Simultaneously provides a comfortable and quiet driving experience

Safety

Sophisticated bruise-resistant sidewall rubber formula provides longer service life

Comfort

Multipath tread design helps reduce noise for a quite ride on either paved or unpaved roads.
