

EVERGREEN

drive to the future

EW66

PASSENGER CARS / SUV / 4x4s

Winter Tire Series

The EVERGREEN winter tire series is designed with the latest tire technology, which makes tires incredibly durable and reliable. Specially designed for passenger cars and SUVs /4x4s, provides high-level handling and safety in winter conditions.

The EW66 tire is the perfect companion for drivers who frequently navigate through snowy and icy terrains. Its silica compound ensures superior driving performance, while an asymmetric pattern and wide tread offer unmatched safety.

White Carbon Black Filler

Carbon Black Filler

Ultra Winter Traction

Specialized winter tread design maintains softness in low temperatures and ensures stable driving and braking forces. Advanced Silica Compound Technology improves tire grip and offers lower rolling resistance for more efficient tread wear.

Winter Braking

The presence of deep and sophisticatedly arranged grooves, along with steel sheets, aids in cushioning the tread and reducing the braking distance on icy surfaces.

M+S

Safety and Beyond

M+S (Mud + Snow) marked tires and Three-Peak Mountain Snowflake (3PMSF) tires deliver winter performance that is legally certified. The EW66 will help to ensure your safety, and the safety of those around you, during the winter months.

Excellent Handling

Good handling means it can be easily steered, turned, and stopped with minimal effort from the driver.

The asymmetric pattern design provides super maneuverability and allows for greater control and precision in driving.

Advanced Sipping Technology

Enhances the winter driving experience by improving grip and traction on packed snow and ice through 3D sipping.

The advanced sipping technology makes acceleration and braking more effective in winter weather conditions.

Inch	Size	LI / SI	Overall Diameter		Section Width		Standard Rim	Max. Load	Max. Pressure
